I'm a Full Stack Web Developer with a passion for tech. My educational journey in web development is a bit unconventional but always driven by genuine interest. I'm here to leverage my skills, creating innovative solutions for businesses with challenging problems. Quick learning and a knack for adapting in fast-moving environments? That's me!

TECHNICAL SKILLS

Languages & Frameworks & Libraries: JavaScript ES6+, Python, Java, CSS, Node.js, HTML, React, Next.js, Handlebars, jQuery, Bootstrap, Tailwind
API Development&Version Control: RESTful APIs, API Integration, GitHub, Git, GitLabs
Practices: Responsive Design, Mobile-first Development, Team Collaboration, Critical Thinking

PROJECTS

E-commerce | https://ecommerce-flame-gamma-54.vercel.app/ | **Github**
- Summary: Developed a Next.js e-commerce platform with an admin interface for product management and a customer-facing storefront for seamless online shopping experiences.

Linkafy | https://linkafy.vercel.app/ | **Github**
- Summary: Built a link tracker that efficiently shortens and tracks URLs, providing analytics on user engagement and link performance.

PopcornPeek | https://obscure-anchorage-29420.herokuapp.com/ | **Github**
- Summary: PopcornPeek is a comprehensive MERN stack web application offering real-time updates on trending movies, TV shows, anime, and entertainment news.

GYM Homies | https://gym-homies.herokuapp.com/ | **Github**
- Summary: Gym Homies is a web application that allows users to track their fitness progress.

EDUCATION

Certificate, Full Stack Web Development – The University of Minnesota
North Hennepin Community College
High School Diploma – Ubah Medical Academy

EXPERIENCE

Freelance, Minneapolis, MN - Freelance web developer
February 2023 - Current
TTCS | **https://totaltowncarserviceandtaximsp.com/** | **https://github.com/abduljabar5/ttcs**
- Summary: Website I developed for a small startup taxi service company. By integrating a user-friendly online booking form and crafting a modern web presence for the company, their sales zoomed up by an impressive 30%.
- Tools: HTML, CSS, JavaScript, Bootstrap, GoogleFonts, GoogleMaps API, EmailJS API

Charlie London | **https://charlielondon.netlify.app/** | **GitHub**
- Summary: Developed a dynamic website for a hair and beauty salon, designed as a central hub for showcasing the salon's range of services. Integrated features include service listings, a gallery of work examples, and links to booking and contact information. The site effectively enhances the salon's online presence and customer engagement.
- Tools: HTML, CSS, JavaScript, Tailwind UI, GoogleMaps

Securitas, Minneapolis, MN - Security Officer
October 2022 - Current
- Successfully enforced the company's rules, regulations, and posted orders, illustrating my capacity to quickly understand and apply complex systems and standards.
